EDUCATION

Jims Engineering Management Technical Campus (JEMTEC)

Greater Noida, India

Bachelor of Technology in Computer Science & Engineering | CGPA: 8.7

2024 – Present

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Web Development, Computer Networks

PROJECTS

Finance Dashboard | *React.js, Node.js, Express.js, MongoDB, JWT, RBAC*

Apr 2026

- Built a secure, role-based finance dashboard with distinct access levels for Admin, Manager, and Viewer roles, enforcing route-level and data-level permissions using JWT authentication and RBAC middleware.
- Implemented full CRUD operations on financial records with MongoDB aggregation pipelines to compute revenue summaries, expense breakdowns, and role-filtered analytics.
- Architected a stateless REST API with Express.js using protected route guards, token refresh logic, and structured error handling to ensure secure and predictable API behavior.
- Deployed frontend on Vercel and backend on Render with environment-based config management for seamless production delivery. [Live Demo](#)

MockMate | *React.js, Node.js, Gemini API, Web Speech API, Vercel*

Jan 2026

- Deployed a fully functional AI interview simulator that leverages Generative AI to conduct technical mock interviews in real time.
- Integrated Gemini API to analyze user responses and deliver context-aware, instant feedback on technical answers.
- Built a responsive, latency-optimized frontend with React.js ensuring smooth, uninterrupted interview interactions.
- [mock-mate-gilt.vercel.app](#)

CipherSQL Studio | *React.js, Node.js, Express.js, MongoDB Atlas, PostgreSQL (Neon), Gemini API*

Feb 2026

- Engineered a full-stack MERN application providing an interactive, secure SQL execution environment for solving complex database challenges.
- Architected a dual-database system using MongoDB Atlas for user state management and a transaction-sandboxed Neon PostgreSQL engine to safely execute dynamic user queries.
- Designed a relational e-commerce schema (users, products, orders) facilitating 6 integrated SQL challenges with seamless data validation and frontend-to-backend communication.
- github.com/mdhilal9153/SQL-Studio

TECHNICAL SKILLS

Languages: C++, Java, JavaScript (ES6+), TypeScript, HTML5, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Redux

Databases: MongoDB, PostgreSQL

Developer Tools: GitHub, Postman, Vercel, MongoDB Atlas

ACHIEVEMENTS & CERTIFICATIONS

Campus Ambassador | *Underrated Coder, JEMTEC*

Nov 2024 – Mar 2025

- Selected as Campus Ambassador to represent Underrated Coder at JEMTEC, acting as a liaison between the company and the student community.

Postman API Fundamentals | *LetsUpgrade*

2025

- Completed certification covering REST API testing, collection design, and environment management using Postman.
